Saluting Their Service Community Commemorative Grants

Member for Maranoa David Littleproud has commended Junabee Memorial Hall on receiving \$4000 in Federal Government funding for their commitment to commemorating Australia's wartime history.

"Junabee Memorial Hall will be able to install a sandstone monument and flagpole in front of the existing memorial hall to honour veterans and recognise their service.

"This project is a permanent tribute to local community members who have served and continue to serve our country."

Mr Littleproud said this latest round of grants will ensure the delivery of meaningful projects in local communities to commemorate Australia's role in wars, conflicts and peacekeeping operations and reflect our gratitude to service men and women.

"We will continue to support the work of organisations that preserve our local history for future generations," he said.

The grant was received through the latest Community Commemorative Grants category of the *Saluting Their Service* Programme.
